

## **Maxxess Systems North American Sales Force to Report Directly to Nancy Islas**

Anaheim, CA – April 5, 2010 – Maxxess Systems Inc. today announced that the North American Sales Force will now report directly to its President, Nancy Islas.

Islas has been with Maxxess for eleven years and has served as its president for the past eighteen months. Prior to that period, she led Maxxess's design activities as VP of Product Development.

"Nancy has more than 20 years of experience in developing and selling security systems," said Kevin Daly, CEO of Maxxess. "She has a deep understanding of customer needs and has many established relationships with key partners, consultants and end users.

"Nancy was the product manager for the development of our two major product offerings, the company's eFusion product and the EndPoint information framework. Over the past year and a half, she has managed all operational aspects of Maxxess with the exception of sales. This has prepared her for assuming the leadership of this last, critical operational area." continued Daly. "We believe that Nancy will bring her considerable understanding and experience to the sales program and I am delighted to announce Nancy's new responsibilities."

### **Maxxess Systems, Inc**
